# MOVE-OUT

## **FREIGHT LOAD-OUT SCHEDULE**

The schedule has individualized load-out times for each exhibitor and their exhibitor properties. Consequently, each exhibitor must plan to teardown and pack-up their materials to meet the load-out schedule, which is sent to exhibitors in December.

## **VEHICLE MOVE-OUT**

All vehicles, except concept cars, must be removed from the exhibit hall Sunday night, February 2, **after the aisle carpet is removed**. No vehicle move-out begins before 7:00 PM when freight doors open. No vehicle can start or move until that time. Vehicle drivers may enter the building after Show Management gives the 'all-clear' around 7:00 PM and they can begin reconnecting vehicle batteries.

A designated area outside NRG Center is available in the parking lot for overnight storage. A security guard is at that location for overnight security until 7 AM, Monday, February 3.

Dismantling of exhibits is prohibited until after the Show has officially closed and exhibitors are allowed to return to the exhibit hall upon instruction from Show Management. Exhibitors who begin teardown prior to that time jeopardize participation in future Shows. Aisles must remain clear at all times during move-out.

**Exhibit freight must be ready for load-out by 10 AM on Monday, February 3.**

**IMPORTANT – AFTERMARKETS/VENDORS: Move-out must be complete and the hall must be cleared on Sunday before 11:59 p.m.**

Exhibits must be dismantled and removed from the hall starting at approximately 7:00 PM, Sunday, February 2. Dismantling of exhibits is prohibited until after the show has officially closed at 6:00 PM. Please do not place anything in the aisle until the aisle carpet has been removed.

Show Management will provide instructions that everyone, including exhibitors, will be cleared out of the hall (with the exception of **ONE** staff person who will who can remain in the exhibit space to watch your company's property during this process). Everyone else will gather in the lobby in Hall C until the show floor is clear of attendees and then you will be allowed back in.

Exhibit dismantling must be complete Sunday evening. All display material must be packed up and removed by Sunday at midnight for security purposes. We cannot guarantee the safety of any articles left overnight in your exhibit booth.

Special attention must be paid to columns containing firefighting apparatus and any cover or decoration must allow for unrestricted and unfettered access by emergency personnel to the firefighting apparatus at all times.

**FLOOR COVERINGS.** The use of carpeting must be arranged by each Exhibitor with Licensor. No floor coverings may be sealed to the floor in such a manner as to injure or deface the floor or be so installed as to be a hazard to public safety or as to endanger the public. Each Exhibitor is responsible for the final condition of the floor in its exhibit area. Floor coverings other than carpeting may be used only with the prior written approval of Licensor.

**MOVING MECHANISMS.** No Exhibitor may show any mechanism in operation if it is noisy or objectionable to Licensor. All moving mechanisms must be adequately protected by the Exhibitor to prevent injury to any person.

**LUBRICATION SYSTEMS.** Lubrication systems and parts must be drained or treated so that lubrication will not drip onto the floor or otherwise damage the building or carpet.

**ELECTRICAL WORK.** All electrical and sign work in connection with exhibits must conform strictly to the rules and regulations of the National Electrical Code and the local Building Code. All such work is subject to supervision and direction of building management and shall be paid for by the individual Exhibitor.

**EXHIBIT COMPLETION.** Exhibits must be completed according to the schedule published by Licensor. Goods received after the opening day must be delivered by arrangement with the Auto Show's official drayage contractor and Licensor, Shepard Exposition Services

**STAFFING AND PERSONNEL.** At all times during Show hours, Exhibitor shall, at its sole expense, provide personnel to supervise the Space. **VEHICLE PRESENTATIONS.** In order to maintain the integrity of the Show and the highest public satisfaction, vehicles must be displayed in the same manner during the entire public run of the Show. Vehicles must be on display all of the public days and hours that the Show is open to the general public and may not be covered-up from public view. No vehicle may be removed from the Show during either press days or public Show days without the vehicle being replaced with another identical vehicle or is already duplicated in the exhibit. Vehicles may not be introduced or brought in after the Show has opened for public Show days. Exceptions are subject to the sole discretion of the Licensor.

**PRICE INFORMATION OF VEHICLES.** All vehicles except prototypes or similar vehicles must have price lists that show the manufacturer's suggested list price of the vehicle, including any optional equipment contained on the

vehicle so displayed. This price information may either be the “Monroney” sticker or one of the Exhibitor’s own design, but must contain the same information as the “Monroney” sticker.

**SOUND LEVELS.** Licensor and/or Licensor’s representative reserves the right to regulate and restrict exhibits to a reasonable noise level. No exhibitor shall produce peak or continuous sound levels exceeding 85 dB, measured from any adjacent aisle or exhibit. The sound level limitation may be raised or lowered at the discretion of the Licensor and/or Licensor’s representative.

**PRESENTATIONS.** The presentation platform or display property used should be placed, preferably, toward the rear of the exhibit space. It must be positioned so that gathering crowds that may collect will be in the Space and not in the aisle. Narration must be limited to a sound level that will not significantly interfere with neighboring exhibitors. Licensor reserves the right to limit the number of employees in attendance and the amount of material that may occupy any space at any one time.

Video presentation content must be devoted exclusively to the business of the Exhibitor. Exhibitors will not be permitted to present live musical shows within their exhibit areas. This restriction prohibits the use of live musicians and singers, but does not prohibit the use of narrators or dancers to demonstrate product features.

**SECURITY.** Licensor assumes no responsibility for loss or damage to vehicles or property, but may provide guards for general security. Should an Exhibitor have a security concern, the Exhibitor may order security personnel to patrol their area, either during Show hours or on a 24-hour basis.
